The residential facility screening team reviewed and made determinations on petitions for two recommitments and 1 new commitment in January. The persons considered for recommitment were determined to be seriously developmentally disabled due to ongoing behaviors that pose imminent risk of harm to self and/or others and the recommendation was for recommitment. The person considered for a new commitment was an emergency commitment and this person was determined to be seriously developmentally disabled due to imminent risk of serious injury to self.

There was one new admission to the Montana Developmental Center in January considered by the residential facility screening team. There was another emergency admission in January that will be considered by the residential facility screening team in February. There were no placements into community DD services. The current census at MDC is 52.

As of this date there are 26 people referred or in the process of being referred for community placement from MDC. This total includes three people residing at MDC without commitments. The referred people are on the MDC port list and proposals are requested to serve them in DD community based services. There are two pending placements and a pending commitment. Several
